

ASSEMBLY INSTRUCTIONS

CONTENTS

1 x filter • 2 x connectors
2 x end caps • 1 x small piece of hose

1 • Remove end caps

2 • Unscrew connectors

3 • Slide cap onto hose

4 • Connect hosepipe to connector by inserting fully into the recess.

5 • Screw cap to connector tightly to secure hosepipe

6 • Connect hose to filter by pushing in firmly and completely

7 • The short piece of hose is used to connect to your existing water source connector if necessary. Water may flow in either direction.
